

Computer Science Department: TechHub Tour Plan

1. Proposed Date

Wednesday, August 27th, 2025.

2. Estimated Number of Students

Estimated student participation across levels:

10 Students in each level + Lecturer (3 - 5)

Total expected: 40 students + 5 Lecturers.

3. Transportation

Transport options include:

- Hire 2 Shuttle Buses (20-seater each)

Other considerations:

- First aid kit or emergency plan

4. Student Welfare

Provide for student comfort:

- Bottled water and light snacks
- First aid support (if needed)

5. Purpose of the Tour

The tour is designed to give students real-world exposure to technology, innovation, and professional tech environments. It's not just about knowing there is a TechHub, but:

Main Objectives:

- Inspire students through interaction with tech founders and engineers
- Discover internships and mentorship opportunities
- Experience startup demos and workshops
- Understand what the tech industry demands
- Motivate project and entrepreneurial thinking
- Promote career and skill development
- Build networks and connect with alumni and tech experts
